SUMMARY

Computer Science undergraduate graduating in 2027, seeking Flutter developer internships or entry-level roles. Builds cross-platform apps and web projects through hands-on development, testing and iteration.

TECHNICAL SKILLS

Languages: Dart, Python, JavaScript, SQL
Mobile & Cross-Platform Development: Flutter, React Native
Backend & APIs: Node.js, Express.js, MongoDB, MongoDB Atlas, REST API Integration, Postman
Developer Tools: Git, GitHub, VS Code, Android Studio, Xcode
Data & Analytics: Pandas, NumPy, Matplotlib, Excel, Jupyter Notebook
AI-Assisted Development: Cursor, Codex, ChatGPT, Claude; Prompt Engineering, Code Evaluation, Debugging

PROJECTS

Orbit — Android & macOS Browser | Flutter | Website | GitHub

- Built a functional cross-platform browser MVP using **Flutter** and **Dart** for **Android and macOS** in **two weeks**.
- Created a **dedicated product website** to showcase the application and distribute **Android APK builds**; **macOS DMG** distribution and **Google Play release** are planned.
- Conducted **iterative testing and debugging**, gathering **early user feedback** to identify usability issues and areas for improvement.

Obvious-Choice — Personal Branding Platform | Live | GitHub

- Developed a **personal branding web platform** for **B2B founders**, integrating structured service information, **newsletter sign-up**, and client acquisition pathways.
- Designed a **five-stage service framework** and **six-stage client journey** to guide visitors through the offerings and encourage **potential client conversions**.

EXPERIENCE

Data Analyst | MLK Associates LLP | Remote | Jan 2025–Present

- Maintained **inventory spreadsheets**, checked data accuracy, and identified stock imbalances to support purchasing and inventory planning.
- Streamlined spreadsheet workflows and shared regular insights to support operational decisions.

TRAINING

Python Developer Training | IBM SkillBuild Program | Feb 2023
Mental Fitness Tracker:

- Completed Python development training covering **programming fundamentals, Pandas, NumPy, and Matplotlib**.
- Analyzed mental health datasets across different countries using **Python and Pandas in Jupyter Notebook, performing exploratory data analysis and visualizing trends**.
- Gained introductory exposure to linear regression and basic predictive modeling concepts.

EDUCATION

B.Tech, Computer Science and Engineering | Expected 2027
Maharshi Dayanand University (MDU), Rohtak

Diploma, Computer Science | 2021–2024
Chhotu Ram Polytechnic College, Rohtak
